# DESPRE NOI

Tăierea laser este, probabil, cea mai precisă metodă de decupare a materialelor. Prin acest procedeu se pot reproduce detaliile fine, fara a risipi materialul. Cu o experienta vasta in domeniu, compania Octaser este cunoscuta ca fiind una dintre cele mai importante firme din Romania care se ocupa cu taiere laser.

## Panouri decorative realizate prin taiere laser

Preturile afisate in catalog sunt valabile pentru debitari executate din urmatoarele materiale:

- MDF 3 mm
- Placaje lemn diferite esente intre 3 - 4 mm
- Materiale acrilice (plexiglas) 3 mm

Pentru alte tipuri si grosimi de materiale preturile se recalculeaza in functie de caracteristicile proiectului.

Disponem de o gama larga de modele (traditionale, geometrice, islamice si florale) pentru elemente decorative pe care le dezvoltam in permanenta, dar suntem dispusi sa si proiectam gratuit modelele trimise de clienti. Oferim asistenta specializata de design si proiectare, tot ce trebuie sa faceti este sa ne trimiteti dimensiunile si pozele locatiei ce trebuie amenajata sau obiectul ce trebuie realizat.

La orice proiect compus din modelele afisate in catalog oferim serviciul de design si machetare gratuit.

Promptitudinea serviciilor noastre, produsele de o calitate superioara, precum și un excelent raport pret-calitate, fac ca firma noastra sa fie alegerea cea mai potrivita pentru orice client.
